

In order to celebrate International Dance Day on April 29, each year DanceNL creates a flash mob which has been performed across the province for the past two years. This year, we are doing something a little different! We are creating a “Virtual Flash Mob”, a dance mashup to local band Repartee’s song “Hello Hello Hello.”

And we would like you to participate! We hope the FAQ, listed below, will answer all your questions.

1) How many people do I need?

The group can be as small (1 person) or as big (as many friends as you can gather) as you want.

2) How will I learn the dance?

We have created an instructional video which will teach you the dance. If you need help after watching the video, let us know and we will help you learn it! We have kept the dance fun and super easy so that everyone can participate! Here is a link to the 2013 Instructional Video :

<http://dancenl.ca/idd-flash-mob-instructional-video/>

3) How do I video the dance?

If you are in the St. John’s area, we can arrange for our videographer to come and video your group. If you are outside the St. John’s area, OR if you have the means to do the video yourself (a smartphone will do the trick!), we will give you some tips to help you get the most out of your video.

4) What do I do once I have the tape?

E-mail us at info@dancenl.ca and we will get the video from you. We will also ask you to sign a permission form, since we will be posting the video online.

5) What will the final video look like and how can I see it?

Our videographer will piece together excerpts from all our performers into a mashup of everyone across the province who has participated. On International Dance Day (April 29), we will post the video on Youtube and e-mail you the video so you can put it up on your facebook page, e-mail it to your friends, and help us make it go viral!

6) Where can I listen to the song?
